

Project Design - I

Solution Architecture

Date	04 November 2022
Team ID	PNT2022TMID07424
Project Name	Skill and Job Recommender

Solution Architecture:-

Solution architecture is a complex process - with many sub processes - that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
